Bryan Culver

Portfolio

Featured Projects

DropBin

Skills: HTML, PHP, CSS, Photoshop, MySQL, JavaScript, AJAX

A friend asked me to help me with his open source project, which allows users to upload code snippets for others to see. I was asked to add features to the existing framework which included line selecting and syntax highlighting. I as well redesigned the website and reworked the backend. It has been taken down but a working version is still maintained at <http://db.bryanculver.com>

OPML Lister

Skills: HTML, PHP, CSS, MySQL, OPML Processing

I wrote this small online application out of the need to show friends what websites I was subscribed to. Instead of shoving my OPML at them and they either sift through the garble or importing into their own, I spent a night writing this. It's fairly basic but I plan to add a few features to it. Thanks to standards it works with almost all OPML files, haven't found one yet that doesn't work. Try it yourself by visiting <http://opml.bryanculver.com>

Other Places I've Worked On:

Thought Crime Magazine (<http://crimesofthemind.com/>) *Wordpress Template Editing*

Skiers Pier (<http://skierspier.com/>) *Website Management*

Personal Site Redesigns (<http://vault.bryanculver.com/>)

QuickJS (<http://projects.bryanculver.com/quickjs/>) *Wordpress Plugin*

PHP Indexer and Uploader (<http://projects.bryanculver.com/indexup/>) *un: login pw: password*

Time Based CSS (<http://projects.bryanculver.com/timecss/>)

Places I've Been Mentioned:

W3CS (<http://w3cs.com/sitelist/4589.htm>)

NathanRice (<http://www.nathanrice.net/blog/respect-requires-altruism/>)

W3CSites (<http://w3csites.com/profile.asp?u=bryanculver>)
